Year, Expected Completion: 2026

- 3-year, 360-credit NQF Level 6 qualification covering programming, web development, and database design
- **Stream:** Software Development / IT Management
- **Key Modules:** Object-Oriented Programming, Systems Analysis & Design, Web Development, Database Design, Networking Fundamentals, IT Project Management

PROJECTS

Project 1 Title – Personal Portfolio

2026

Tech: HTML, CSS, JavaScript, Git & GitHub, GitHub Pages, VS code

- Designed and built a fully responsive personal portfolio to showcase my CV, skills, and academic projects.
- Deployed live website using GitHub Pages and manage updates via Git & GitHub from both laptop and mobile.
- Implemented direct CV download, contact links, and clear UI for recruiters viewing on phone and desktop.

Project 2 Title - Equity Solutions (School project)

2025

Tech: HTML, CSS, JavaScript, PHP, MySQL

- Designed and built a responsive web app for a non-profit organization committed to bridging the gap between legal professionals and those in need of justice through accessible free legal support.
- Implemented user authentication, MySQL database, and admin dashboard for reporting.

Project 3 Title - Son Of The African Soil (E-commerce Project)

2026 – Present

Built and deployed a full responsive e-commerce website for a local streetwear brand (SOTAS).

- Developing a custom storefront from scratch: HTML, CSS, JavaScript (vanilla)
- Implemented product variant system (colour dots + size pills), exact stock tracking, bestseller stacking cards
- Built cart drawer with WhatsApp checkout flow, shipping logic, and form validation
- Optimized hero section to work on all screen sizes (mobile + desktop) with single background image and functional top navigation
- Added SEO, mobile-friendly layout, nationwide delivery & returns UI
- Tech: HTML5, CSS3, JavaScript, Responsive Design, DevTunnels for testing,
